Another Successful V.I.P. Client Shares His Story

To All Skeptical Men:

I first contacted TLC in October of 2006. Bruce White, the President of TLC, and I had numerous telephone conversations regarding my desire to find a traditional lifemate. After these discussions I decide to give TLC's V.I.P. program a try, and I was shocked by the number of interested ladies who contacted me. I received over 200 responses! One of which, was from a very beautiful young lady named Adrianna from Cali Colombia. When I saw her picture, I told my friends that this was the woman for me.

I flew to Colombia and she was waiting for me at the airport. When she first saw me, her face broke into a big smile. We've been together ever since. I have visited Adrianna several times in Cali and have found the Colombian people to be warm and friendly. Adrianna comes from a great family, she is a great person with a good heart. I am confident that we will be together for the rest of our lives.

We are now waiting for approval of her Visa to be approved. As soon as she arrives here we will be married. Thanks Bruce, for this invaluable service that brings single people, like the two of us together.

Sincerely,
Jerry H.
