"THE #1 Introductory Service of the AMERICAS"™ presents:

**"The Latina Connection"™**

**Correspondence Services** represent a new day of romance opportunities to single men dissatisfied with their current dating situation. Establishing relationships through letter exchange has existed throughout history, including our expansionary period westward. Most recently, International Romance has blossomed into an acceptable and alternative method for marriage-minded women and men sharing similar values. Latin American Ladies (Latinas) offer a second chance at love to many American men hoping to share their lives with someone special.

**We recommend a Special Package #1, 2 or 3 for maximum results.**
